

International Seminar of the ISSA May 21, 2019 | Vienna | Austria

issa

INTERNATIONAL SOCIAL SECURITY ASSOCIATION

Main topics

- Risk assessment
- Digitalisation
- Knowledge transfer

International Seminar of the ISSA

Organized in collaboration with the ISSA sections:

- Metal Industry
- Electricity
- Machine and System Safety

- Risk assessment
- Digitalisation
- Knowledge transfer

Chairs H.-J. Bischoff, ISSA Section on Machine and System Safety,
Mannheim, Germany
Ch. Schenk, AUVA, Vienna, Austria

In collaboration with

A. Causevic, AUVA, Vienna, Austria
B. Huber, AUVA, Vienna, Austria
M. Brand, Consultancy/Coaching, Maria Enzersdorf, Austria

Simultaneous interpretation German – English

What can you expect?

The international seminar will remain faithful to its tradition of interaction in relation to the involvement of the participants and will offer new didactic possibilities. The technical experts will not „only“ give a lecture on the individual topics, but they will be also integrated into an overall choreography using innovative methods. Let yourself be surprised!
Use the opportunity and participate in our raffle!

11.00 – 12.30 Session 1: Risk assessment

Illustration: Michael Hüter

What is actually meant by the term „risk“, what are the parameters that increase a risk? What about our personal risk assessment, do we always assess risk correctly? What do you need to know in order to reliably assess a certain risk? If you are interested in these topics, you are in the right session. Together with our experts, we will approach the concept of risk and also learn about new approaches to risk assessment other than the familiar ones and also „try out“ one or two examples.

Speakers

Possibilities, limits and nonsense of risk assessment

M. Müller, German Lufthansa AG, Frankfurt am Main, Germany

Application and methods of risk assessment

K. Rabald, Employers' Liability Insurance Association for Raw Materials and Chemical Industry, Hamburg, Germany

How we subjectively – sometimes even wrongly – assess risk.

CM. Wittlich, Institute for Occupational Safety (IFA) DGUV, Sankt Augustin, Germany

12.30 – 14.00 Lunch break

Tuesday, May 21, 2019

14.00 – 15.30 Session 2: Digitalisation – Health and safety at work 4.0.

Illustration: Michael Hüter

New and automated technologies are increasingly having an impact on health and safety at work. This can create opportunities and possibilities to make work easier for people and to avoid exposing them to certain dangers – or the danger of new, unprecedented dangers and threats that need to be addressed. In any case, increasing digitisation is changing work situations, processes and risk scenarios, which in some cases require a radical reorientation with regard to technical, organisational and personal health and safety at work.

Speakers

Safety meets security – two systems, one (larger) common goal

W. Seböck, Danube University Krems, Faculty for Economics and Globalisation, Krems, Austria

Risk assessment in a digital age

E. del Prete, INAIL, Rome, Italy

Colleague Algorithm: The interaction of human beings and artificial intelligence in professional life

O.Renn, Institute for Advanced Sustainability Studies (IASS), Potsdam, Germany

15.30 – 16.00 Refresh & Talk:
Coffee, tea, cold beverages and brain food

16.00–17.30 Session 3: Knowledge transfer

Illustration: Michael Hütter

The „traditional“ frontal teaching with or without Power Point can certainly still be used, but should move more and more into the back-ground. Not least also by new technical possibilities, knowledge transfer can take place effectively and also efficiently: Terms and topics such as „Augmented Reality, 3 D Simulation, Virtual Commissioning“ offer technical approaches and possibilities for new forms of knowledge transfer. As far as the didactic framework is concerned, terms such as “webinar, self-determined learning or blended learning“ are possible options to traditional approaches. Let’s find out together – supported by experts – which possibilities and alternatives there are in comparison to the classical lecture.

Speakers

Innovative methods of knowledge transfer – RiskMan: A European project.

R. Prichystalova, Technical University of Ostrava, Czech Republic

Virtual reality/Augmented reality – the innovative use of new technical methods

M. Stöger, aquamarine, Vienna, Austria

Summary, Results, Outlook

H.-J. Bischoff, ISSA Section on Machine und System Safety, Mannheim, Germany

Ch.Schenk, AUVA, Vienna, Austria

Registration

Online registration

Online registration is possible (in German only) on the website of the Forum Prävention 2019:

<https://online-services.auva.at/congress>

Click on "events" and select "Forum Prävention 2019".

If you just wish to attend the International Seminar, please only tick "Internationales Seminar KMU der IVSS" on the registration form.

If you wish to participate in the other sessions as well, please indicate which sessions you would like to attend (**in German only!**).

Per post/email/fax

Please send the registration form to
AUVA | Office for International Relations and Convention Management
Adalbert-Stifter-Strasse 65 | 1200 Vienna | Austria

congress@auva.at

Fax: +43 5 93 93-20198

You will receive a confirmation of registration from the Conference Secretariat.

Registration fee

Euro 180,--. The participation fee includes participation in the opening session, the International Seminar on May 21, 2019, as well as the coffee breaks and symposium documentation.

Please note that the fee also includes participation in the „Forum Prävention which will take place from May 20 – 23, 2019 at the same location. The Forum Prävention is the annual meeting of Austrian safety experts and specialists in occupational health and safety. Please note that the sessions are held in German only. The Forum Prävention offers plenary sessions, working group meetings, technical excursions as well as a safety and health exhibition.

For the full programme (in German only) of the „Forum Prävention“, please see the website:

<http://forumpraevention.auva.at>

Payments

Please transfer your registration fee to the following account (payments from abroad shall carry the remark „free of charges for the recipient“):
Allgemeine Unfallversicherungsanstalt – key word:
„Forum Prävention 2019“, at the Raiffeisen Zentralbank Wien,
IBAN: AT08 3100 0020 0010 5460, BIC: RZBAATWW

Please indicate the invoice number (or name) on the transfer form, otherwise we cannot allocate your payment.

Deadline for registration

The deadline for registration is Friday, April 19, 2019.

After that date, only on-site registration is possible!

Cancellations

Cancellations must be submitted in writing to the Conference Secretariat.
Fees are reimbursed in case of cancellations **until April 19, 2019.**

No reimbursement is possible in case of a cancellation after that date;
However another participant can be named instead.

Hotel reservations

The Vienna Tourist Office offers the possibility of booking hotel rooms on their website: **<http://wien.info/de/hotels>**

**Information and booking:
Wien Hotels & Info (free of charge)**

Phone: +43 1 24 555

Fax: +43 1 24 555 666
